

Krome Wetsuits

The KROME wetsuit is 5mm with optimum stretch and a torso dry system.

features

- ▶ **Optimum Stretch:** is a revolutionary feature built into the all new KROME wetsuit. Some would have you believe that all stretch neoprene is the same.... it's not! So what is Optimum Stretch? It's the optimum combination of comfort and durability built into a special stretch neoprene and it guarantees that when you wear your new KROME wetsuit, you enjoy the ultimate in flexibility without sag or gaps to let cold water in. Optimum Stretch means No Restrictions diving for you.

- ▶ **Torso Dry System:** The new KROME wetsuit incorporates a Titanium lined seal that surrounds your body, completely covering all your vital organs, ensuring that your body's core warmth is maintained making your dive much more comfortable.

- ▶ **Secure Stitch Technology:** Your new KROME utilizes the latest stitching technology, double stitching makes your new wetsuit the ultimate in strength and durability, that why it comes with a limited lifetime guarantee on stitching*. Conditions apply see in store for details.
