

# Kronos

Aqua Lung's King of Titans: Kronos is First Regulator with Lateral Deflector and Combined Adjuster Regulator deflects bubbles to the side; improves visibility and versatility.

The Kronos is a new regulator that offers innovative solutions to common frustrations found on traditional regulators. At first glance, you'll notice the asymmetric Side-X exhaust system that gets the bubbles out of your field of view. In addition, fine-tuning is simplified by combining the venturi control with the breathing resistance knob into one Dual Cam controller.

\* Compatible with EAN 40 right out of the box

\* Din adapter Option

## STAGE 1 FEATURES

Balanced First Stage

Auto Closure Device (ACD)

## STAGE 2 FEATURES

Air Turbo System

Balanced Second Stage

Venturi Adjustment Switch

Comfo-bite Mouthpiece

Sensitivity Adjustment

Side X

Dual Cam

## features

- ▶ New asymmetrical Side-X exhaust system (pat. pend.) routes bubbles out of your viewing area
- ▶ Even though the exhaust bubbles are routed out the side, the exhaust valve remains in the traditional location providing consistent, dry exhalation
- ▶ Exhaled breath passes over the second stage valve effectively warming it, thereby making it resistant to freezing
- ▶ The venturi control and breathing resistance knob have been integrated into one Dual Cam controller (pat. pend.). Divers can now achieve ideal settings with less to think about
- ▶ Aqua Lung's Auto-Closure Device ACD (pat. pend.) seals water out of the first stage when the regulator is removed from the cylinder
- ▶ The first stage is a balanced diaphragm design coupled with a pneumatically balanced second stage
- ▶ Two HP ports and four MP ports provide the diver with many options
- ▶ Comes with a Comfo-bite mouthpiece, a standard spare mouthpiece and a removable mouthpiece clamp
- ▶ Compatible with EAN 40 new, out of the box
