## **Activities Table**

Activities permitted in each zone and restrictions governing their undertaking are listed in the table above. Other regulations on some activities and for species protection also apply under the zoning plan. Provisions of the Fisheries Management Act 1994 (such as bag limits and size limits for fish), the National Parks and Wildlife Act 1974 (such as approach distances to whales and dolphins), and other legislation continue to apply in addition to the zoning plan.

Note: Commercial and recreational vessels may transit a sanctuary zone. If fishing gear is on board it must not be in use or capable of use.

Symbols used in Activities Table.

- ✓ Activity is permitted in the zone.
- X Activity is not permitted in the zone.
- P Permits required from the relevant Authorities (MPA, DPI, DECC, NSW Maritime). Any activities that are inconsistent with marine park zoning will not be permitted in that particular zone.
- \* Refer to Table I and Table 2 for species that may be taken from habitat protection zones.
- (a) See Table I. Additional restrictions apply at Mackerel Boulder (see descriptive text for point 7 on the map) and at Wilsons Reef and Bait Reef habitat protection zones (see Table 2).
- (b) Activity not permitted in the Mackerel Boulder, Wilsons Reef and Bait Reef, or Lennox Head Boulder Foreshore habitat protection zones.
- (c) Use of traps not permitted in Marshalls Creek or Simpsons Creek.
- (d) Spearfishing is not permitted in the following habitat protection zones: Brunswick River (including Simpsons and Marshalls creeks); Belongil Beach, Main Beach and Clarkes Beach; and Lennox Head Boulder Foreshore. Under the provisions of the Fisheries Management Act 1994, spearfishing is not permitted adjacent to an ocean beach at a distance greater than 20m from a headland. All fishing is restricted in the Mackerel Boulder and Wilsons Reef and Bait Reef habitat protection zones.
- (e) Scoop, landing, hoop (lift) or scissor (push) nets are the only recreational net types permitted for the taking of prawns or crabs within habitat protection zones.
- (f) Restrictions apply see over.
- (g) Hand gathering is permitted only in the Grays Lane and Seven Mile Beach habitat protection zones.
- (h) Beach hauling is permitted only on Seven Mile Beach (applicable to haul, garfish, pilchard, anchovy and bait nets) from Byron St at Lennox Head, north to Jews Point.

- Ilan

(i) Intensive aquaculture is not permitted in the Marine Park.
