REGULATORS

SMART, INNOVATIVE AND FEATURE-RICH

LEGENDS

FEATURES & BENEFITS

The Legend regulators are smart, innovative and feature-rich for the most discriminating divers. These marvels of engineering have unsurpassed performance when it comes to ease of breathing, smoothness and a natural breath feeling. They look sharp and are built to last. The different models have many features in common including:

FIRST STAGE

- Auto-Closure Device (ACD) prevents internal lubrication from washing away. It is safer for elevated percentages of oxygen.
- Unique over-balanced, diaphragm design results in superior performance at depth
- 2 HP ports and 4 MP ports are angled for optimum hose routing
- An environmental dry system keeps water out of the main spring chamber thus preventing ice buildup and keeping silt and contamination out
- Compatible with up to 40% O₂ right out of the box

MBS

The MBS is a, simple and effective way to adjust the breathing performance of your Legend. The MBS controls two functions at one time. It controls the direction of air, which alters the venturi effect, as well as changes the opening effort. One control – two functions, it doesn't get easier.

SECOND STAGE

- Pneumatically-balanced second stage results in smooth, easy breathing
- The Comfo-bite mouthpiece virtually eliminates jaw-fatigue
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- The ergonomic exhaust tee channels the exhaust bubbles out of your field of vision. The design also contributes to a reduction in exhalation effort
- Attached to a 29" braided Aqua Flex hose. These hoses are lightweight and extremely pliable which eliminates any tugging on the mouthpiece

ACD

Auto-Closure Device (ACD) keeps corrosive water out of the first stage inlet by automatically closing as the regulator is removed from the cylinder valve.

LEGENDS

UNSURPASSED PERFORMANCE, SMOOTH AND BUILT TO LAST

LEGEND LUX

AVAILABLE IN YOKE

Pure Luxury, the tougher-than-nails PVD and Pink Gold finish will keep its good looks for longer as it is much harder and durable than traditional chrome plating.

- See previous page for features and benefits.

LEGEND LX

AVAILABLE IN YOKE & DIN

The same high performance features and ease of breathing as the Legend LUX but without the pink gold finish.

- See previous page for features and benefits.

LX TWILIGHT

AVAILABLE IN YOKE

The Twilight Legend LX includes a smaller Comfo-Bite™ mouthpiece to reduce jaw fatigue designed specifically with women in mind. The Legend LX Twilight also comes with its own regulator bag for stylish storage.

- See previous page for features and benefits.

LEGEND GLACIA

aqua lung
system

AVAILABLE IN YOKE OR DIN (SPECIAL ORDER ONLY)

The Legend Glacia offers a greater resistance to freezing than any regulator Aqua Lung has ever produced.

- Aluminum cover machined from solid metal that assists the heat exchangers and accommodates a purge button with flow control.
- Comes with a lip shield to keep lips warm.
- See page 5 for other features and benefits (does not have the MBS Breathing System).

PART #	DESCRIPTION	FITTING	RRP
129280	Legend Glacia	Yoke	999
129290	Legend Glacia	DIN	999

REGULATORS

LIFESTYLE REGULATORS

MIKRON

AVAILABLE IN YOKE (BLUE OR PINK)

- Smallest and lightest weight Aqua Lung regulator (0.87kgs).
- Balanced diaphragm first stage, which by the nature of its design, is environmentally sealed.
- Pneumatically-balanced second stage.
- Second stage has an adjustment knob that allows the diver to adjust the opening effort.
- Compatible with EAN 40 new, out of the box.
- Comfo-Bite™ mouthpiece (smaller in pink version).

PART #	DESCRIPTION	FITTING	RRP
127940	Mikron Blue	Yoke	660
127920	Mikron Pink	Yoke	660

CORE ACD

AVAILABLE IN YOKE

- Auto Closure Device (ACD).
- Balanced diaphragm first stage.
- Pneumatically-balanced second stage.
- The easy-to-grip venturi lever.
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water.
- Compatible with EAN 40 new, out of the box.
- Comfo-bite™ mouthpiece which reduces jaw fatigue.

PART #	DESCRIPTION	FITTING	RRP
129900	Core	Yoke	600

TITAN

AVAILABLE IN YOKE

- Balanced diaphragm first stage.
- Improved yoke screw eliminates trapped water.
- Mid-size, high performance demand valve second stage.
- Easy-to-grip venturi knob.
- Reinforced polycarbonate material makes this second stage stronger than its predecessor.
- Compatible with EAN 40 new, out of the box.
- Comfo-Bite™ mouthpiece which reduces jaw fatigue.

PART #	DESCRIPTION	FITTING	RRP
125300	Titan	Yoke	499

CLASSIC

QUICK DISCONNECT

CALYPSO

AVAILABLE IN YOKE, QD OR NON-QD

- In-line, high-flow piston design meaning reliability and easy maintenance.
- Large diameter of piston guarantees a more stable medium pressure output.
- 6 large holes in the end cap results in easier cleaning and thermal exchange.
- Mid-size, high performance, demand valve second stage.
- Easy-to-grip venturi lever.
- Reinforced polycarbonate makes this 2nd stage stronger than its predecessor.
- Compatible with EAN 40 new, out of the box.
- Comfo-Bite™ mouthpiece that reduces jaw fatigue.

OCTOPUS

YOUR BACK-UP COMPANION

LEGEND OCTOPUS

- High-visibility yellow purge cover and accent pieces.
- 99cm high-visibility yellow, braided hose.
- Pneumatically-balanced to be ideally suited for a Legend over-balanced first stage.
- The venturi lever prevents unwanted freeflow when not in use.
- Excellent coldwater performance due to highly efficient heat exchanger surrounding the valve.

PART #	DESCRIPTION	RRP
129720	Legend Occi	299

GLACIA OCTOPUS (SPECIAL ORDER ONLY)

- The water exchange holes in the front cover have been enlarged for better performance.
- Heat exchangers surrounding the valve and in the middle of the 99cm yellow hose providing excellent freezing resistance.
- An external venturi switch allows you to disable the venturi assist while the octopus is out of your mouth.

PART #	DESCRIPTION	RRP
129353	Glacia Occi	350

CORE OCTOPUS

- The CORE octopus is pneumatically balanced. This results in smooth, easy breathing.
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth.
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water.
- Includes 99cm braided yellow hose and yellow front cover.

PART #	DESCRIPTION	D	RRP
129940	Core Occi		250

MIKRON OCTOPUS

- Pneumatically-balanced octopus is ideally suited for over-balanced first stages.
- An inhalation effort adjustment knob allows you to desensitize the unit while it is stowed for the dive preventing unwanted freeflow.
- High visibility 99cm braided, yellow hose and high visibility yellow cover makes it easy to locate in an emergency.

PART #	DESCRIPTION	D	RRP
127849	Mikron Occi		300

OCTOPUS

YOUR BACK-UP COMPANION

ABS OCTOPUS

- Unique 120° angle between hose and mouthpiece: This Aqua Lung innovation is ideal for giving your octopus to a buddy - will work in either right hand or left hand positions.
- 99cm yellow hose easily distinguishes your ABS hose from your primary hose. This high visibility hose is easily spotted in case of an out-of-air emergency.
- Exceeds CE breathing requirements for regulators.
- Versatile design allows proper function when right side up or upside down.
- Custom quick-release mounting clip keeps the ABS properly located on the body at all times.

PART #	DESCRIPTION	RRP
116920	ABS Occi	210

CLASSIC

QUICK DISCONNECT

CALYPSO OCTOPUS

- Mid-size, high performance octopus to compliment the Titan or Calypso regulators.
- High visibility 99cm yellow hose and high visibility yellow cover makes it easy to locate in an emergency.
- The venturi lever prevents unwanted freeflow when not in use.
- Easy purge front cover.
- This QD model allows the hose to be removed and reattached without tools.
- Can easily be reversed from right-handed to left-handed configuration by an authorized Aqua Lung dealer without additional parts.
- The classic version offers a traditional hose attachment via a swivel nut but is not reversible from right-handed to left-handed configuration.

ALTERNATE AIRSOURCE

HIGH-PERFORMANCE SECOND STAGE WITH POWER INFLATOR

NEW!

AIRSOURCE 4 QD

- The second stage valve is pneumatically balanced. Ideal for use with over-balanced first stages.
- The “Trim Grip” in the middle of the corrugated hose allows diver to dump air from BC during ascent without removing from the mouth.
- Using a bayonet mount, the Airsource easily separates from the BC at the “Trim Grip” allowing it to remain with the diver’s complete regulator.
- Uses a sturdy, yet comfortable Comfo-bite™ mouthpiece.
- Ergonomic design optimizes button placement for ease of use.
- Soft-touch purge cover is located on the bottom.
- Low-profile rapid-exhaust valve is activated by pulling on the “Trim Grip” or the lower unit.
- Clips and recessed areas to accommodate the inflator hose.

PART #	DESCRIPTION	RRP
15251	Airsource 4 QD	350

AIRSOURCE ADAPTER RING

TO FIT MARES | SCUBAPRO | ZEAGLE

Airsource Adapter Rings allow you to mount the Airsource breathable inflator to BCs built by Mares, Scubapro and Zeagle. Just because someone has chosen not to dive with the world’s best selling brand of buoyancy compensator does not mean that they should be deprived of the best performing breathable inflator.

PART #	DESCRIPTION	RRP

BUOYANCY CONTROL

INTUITIVE DESIGN, IMMENSE COMFORT

THE i3 SYSTEM

FEATURES AND BENEFITS

i3 controller

Flat e-valve Technology

SureLock™ II Weight System

GripLock™ Tank Band

Wrapture Harness System

Valve Retention Strap

Knife Attachment Points

Octo-pocket

Instrument pocket

Swivel shoulder buckles

WRAPTURE

Using patented swivel shoulder buckles and a proprietary, ultra-thin back plate, the Wrapture provides unsurpassed comfort and stability. Wrapture prevents the BC from “riding-up” on the surface. Out of the water, the Wrapture keeps the cylinder close to your center of gravity and transfers the weight to your hips. The result is the ability to stand up straight with a cylinder that is perfectly vertical

i3 CONTROLLER

Provides easy, one-touch control for inflation and deflation. Eliminates the traditional inflator that dangles at the end of a corrugated hose. i3 is simple and intuitive - just lift up on the lever to inflate and push down on the same lever to dump air. What's more, when you push the lever down, all the dumps, upper and lower, open at the same time!

GRIPLOCK

The GripLock tank band and buckle system is a strong, secure system, making attachment to a cylinder easier than ever before. Gone are the days of complicated web weaving and you don't have to worry about pinching your fingers with the innovative finger saver feature.

BUOYANCY CONTROL

FEATURE RICH INFLATION DEVICES

AXIOM i3

A feature-rich, jacket style BC that incorporates Aqua Lung's patented i3 inflation / deflation system. The Axiom is made from durable, fade-resistant materials.

- See the previous page for features and benefits.

BCD ACCESSORIES

WEIGHT POCKETS, HOSES AND KITS

POWERLINE INFLATOR

- Increased fill rate; now one of the highest air flows in the industry.
- Environmentally sealed unit.
- Integrated hose clips keep the lp hose streamlined.
- Cable activated rapid exhaust at the top, simply pull down on lower unit to dump air.
- Comes with a dust cover for the QD nipple.

PART #	DESCRIPTION	RRP
42810	Powerline Inflator	100

GRIPLOCK TANK BAND

- Finger-Saver feature eliminates pinched fingers.
- Macro-adjustment is set just once until you change to a cylinder with a different diameter. Three presets cover various diameter cylinders in the field today.
- The micro-adjustment can be used for fine-tuning the fit after the band is on the cylinder.
- Rubber traction pad on the backside.

FUSED TECHNOLOGY

IMPRESSION

- Design places lenses close to the face for a wide field-of-view.
- Ultra low internal volume makes clearing fast and easy.
- Advanced Fit Technology uses textured bands of silicone around the skirt to form a superior seal.
- The mask skirt goes further back on the face increasing the contact surface between face and silicone skirt.
- Cardanic Joint Buckles create a customized fit.
- Counter-posed push button activation makes strap adjustments fast and holds the strap securely in place once set.
- Shatterproof, tempered glass lenses meet ANSI standards.

PART #	COLOUR		RRP
112030	Clr/Blu		135

AQUILION PURGE

- Air Deflector enhances the purging operation.
- The vertical position of the Twin Elliptical Purge Valve helps the purging operation.
- Frame of the mouthpiece holder can rotate around the barrel. The diver can adjust the correct inclination.
- Bi-material corrugate which does not crush or deform.
- A flat, rather than round, face sits against the skin.
- Polycarbonate Valve Shield with photoengraved finishing.
- Bi-material splashguard with side dry chamber.
- Patented Comfobite mouthpieces, which does not require the user to clench their teeth, eliminate jaw fatigue.
- Comfo-bite mouthpieces are replaceable.

SNORKEL

SHARP DESIGN, COMFORTABLE FIT

BURAN

- This innovative snorkel is made completely from Silicone.
- Spray-proof cap reduces the possibility of water from waves and spray getting into the snorkel.
- The vivid red colour of the cap increases visibility from a distance, thereby increasing safety.
- Mouthpiece rotates around the single piece silicone body allowing for optimal positioning.
- Patented Comfobite mouthpiece, which does not require the user to clench their teeth, eliminate jaw fatigue.
- Double exhaust valve for an easy purge.

PART #	COLOUR	RRP
180410	Black	50

AIR DRY

- One of the best all-round snorkels produced by Technisub.
- Spray-proof cap reduces the possibility of water from waves and spray getting into the snorkel.
- The vivid red colour of the cap increases visibility from a distance, thereby increasing safety.
- The high volume water collection section keeps water away from the mouthpiece whilst making purging easy.
- The mouthpiece can be turned to the most comfortable position in your mouth.
- Comfobite mouthpieces, which does not require the user to clench their teeth, eliminate jaw fatigue.
- Comfo-bite mouthpieces are replaceable.

SNAP

You know you're supposed to have one, but if having a snorkel hanging off your mask is not necessarily your favorite thing, then this is the snorkel for you.

- Rolls up to fit comfortably into a BC pocket or can also be attached to a D-ring.
- The snorkel deploys in a snap, making it the most travel friendly snorkel ever.
- All silicone design for flexibility and durability.
- Regulator quality mouth piece.
- Secure-Easy™ snorkel keeper is soft and comfortable and allows for easy removal from the mask strap.

PART #	COLOUR	RRP
1000343	Black	45

An underwater photograph featuring a diver in the background and a large, orange and black fin in the foreground. The fin has the brand name 'AQUA CLING' printed on it. The scene is set in clear blue water with some rocky seabed visible at the bottom.

FINS

SUPERIOR FORM, FIT & FUNCTION

FINS

SUPERIOR MOVEMENT IN THE WATER

X SHOT

- The Power Zone, located in front of the foot pocket, features integrated “V Boosters”, providing optimal power with each kick.
- The Power Zone provides the diver a mid-foot pivot point on the fin, minimizing fatigue and maximizing energy transfer to the blade.
- A new spring strap offers a soft heel pad along with Aqua Lung’s own proprietary buckles.
- The foot pocket is equipped with the “Power Transmission Zone”. This anchors the foot preventing unnecessary stretching of the foot pocket on the power stroke resulting in maximum energy transmission.
- The blade contains a high performance elastomer resulting in high efficiency.
- An elastic blade insert creates a “spoon effect” that pushes more water with each down stroke adding to efficiency.
- A customized inner sole provides a grip effect. This prevents wasting power from the boot moving laterally inside the boot pocket.

SHOT FX

- The Shot FX foot pocket’s design, compounds and sizing are dedicated to women’s feet, resulting in greater comfort and have a dedicated blade that is shorter and softer making them easier to kick.

WETSUITS

COMFORT, FIT & FUNCTION

SOLAFX 8/7MM

- 8mm AquaFlex neoprene used in the torso with 7mm AquaFlex neoprene on the legs and arms flexibility.
- Liquid Seam Technology enhances the durability and integrity of the seams.
- The suit has an across-the-chest "Plasmaloc" zipper with tighter tolerances and a unique integrated tooth design that makes the zipper more water resistant than most other brands.
- A water dam covers the neck and shoulders to add another level of thermal protection against any water ingress through the zipper.
- "Skin In" gasket seals in the forearms and calves minimize water entry through the sleeves and legs.
- Lower back pad fills void in lower back to keep water out.
- The outer nylon material is resistant to abrasions and Velcro snags due to the tighter weave.
- The inner material is ultra soft making these suits easy to put on and take off.
- Non-petroleum based neoprene is more environmentally friendly.
- An improved Supratex kneepad offers increased flexibility while offering excellent abrasion resistance.
- Pre-bent anatomic legs and arms.
- The attached hood offers G2 Vent Technology that allows trapped regulators exhaust bubbles to exit.

A man with short dark hair is smiling and looking upwards. He is wearing a dark blue or black dry suit with white reflective stripes on the sleeves and shoulders. Two circular gauges with a white 'S' logo are visible on his chest and shoulder. He is leaning against a rusty metal railing. The background shows a ship's structure with a window and some graffiti on a wall.

DRYWEAR

WARMTH, FLEXIBILITY & COMFORT

DRYWEAR

WHITES DRYWEAR HAS JOINED THE AQUA LUNG FAMILY

Whites Diving has a proud tradition of product innovation, quality, performance and comfort that allow divers to have truly memorable diving experiences that last a lifetime. These shared qualities between such kindred diving spirits made uniting our brands an effortless process.

These traditions will continue as Aqua Lung welcomes White's drywear to the family to offer divers around the world an unparalleled, premium product range.

DRYWEAR

WARMTH, FLEXIBILITY & COMFORT

FUSION BULLET

Originally designed for the Special Forces, the Fusion Bullet is engineered for the harshest diving environments. Super stretch neoprene allows ultimate flexibility and streamlining while strategically placed GatorTech™ armor and reinforced seams ensure maximum durability.

- Ankle zippers ease donning.
- Generously sized twin-zip expansion pockets with D-ring attachment point and drainage.
- Pocket Support System prevents pockets from riding down.
- Deluxe suspenders keep garment comfortably in place.
- Super stretch neoprene provides excellent mobility.
- Rugged GatorTech neoprene on the knees, elbows, shoulders and buttocks extends the life of the skin.
- Removable 2mm comfort pads add cushioning at the elbows and knees.
- Seams are mauser taped and 6 thread sewn for maximum stretch and durability.
- Comes with inflator hose and zipper wax.

FUSION TECH

- The Tech Skin is designed with 1mm neoprene for added abrasion resistance in high wear areas and heavy duty Spandex panels in high stretch areas. This creates the perfect marriage of mobility and durability.
- The Tech Skin attaches and removes easily from the DryCore via hook-and-loop fasteners at the wrists, ankles and zipper.
- All seams flat locked sewn for stretch and durability.
- PU coated knees provide excellent abrasion resistance.
- Expandable bellows thigh pockets included.
- Deluxe suspender system with thermal formed backpad.
- Comes with inflator hose and zipper wax.

DRYWEAR

WARMTH, FLEXIBILITY & COMFORT

THERMAL FUSION

- Rigorously tested by professionals to ensure the highest level of comfort and warmth.
- Cold water immersion and controlled cold weather environmental tests determined effectiveness in protecting skin and core temperatures.
- Comparative testing against our competitor's top rated undergarment confirms the Thermal Fusion superiority.
- Thermal Core Technology is a unique, dual layer design, that allows an unlimited range of motion, with a streamlined fit.
- The first layer, a comfort cut thermal core constructed of Polartec 200 fleece, delivers superior warmth.
- The second, outer layer, is a Polartec Power Stretch Pro compression skin which streamlines the inner core to the divers body, provides a custom fit, and allows maximum range of motion.

FUSION BOOTS

- Hook-and-loop attachment method allows for boot to be removed from drysuit leg.
- Includes plastic insert that fits inside drysock to lock sock in boot.
- Adjustable strap keeps boot in place throughout dive.
- Fin strap stop at heel secures fin to boot.
- Instep cap protects the boot from abrasion of the fin foot pocket.
- Mesh drainage allows water to flow out, preventing sloshing when walking.

HEAT HOOD ZIP AND NON ZIP

- 7mm neoprene side panels, 5mm forehead, and 3mm chin offer optimum warmth and supreme comfort.
- Center panels are double-layered 3mm titanium neoprene with molded vent valves to release trapped air from within the hood.
- Seams are glued, blind-stitched, and seam sealed.
- Grip Strips located at hood side prevent mask strap from slipping.
- Ergonomically designed collar conforms to your neck for maximum coverage and mobility.
- Zip version has zipper with sealing gusset and hook-and-loop fastening tab at zip base allows easy donning and doffing.
